

WALLCOVERINGS

PORPHYRY

Color: RED

SKU No: 5013902

What makes it special

Miles Redd created this red-colored wallcovering to replicate the luxe surface of beguiling antique porphyry, with some colors of his own invention and others that remain true to the crystal-studded stone that has been mined in the deserts of Egypt since the 1st century AD and used decoratively ever since. This rich glossy wallcovering creates a dramatic background for your own life-size jewel box.
