What makes it special

By Schumacher Creative Director Dara Caponigro, *S is for Style* celebrates the limitless possibilities of decorating and helps readers identify their personal style. This accessible and inspiring guide covers a wide range of chic looks, from clean-lined and neutral to sumptuously vivid, and is organized into thematic chapters such as "Sensual & Spare"; "Preppy"; "Ladylike"; "Exuberant" and "Opulent." Each of the sixteen sections opens with a questionnaire to help readers hone their style personality, as well as a breakdown of the essential ingredients to obtain that look. The chapters are packed with gorgeous rooms that channel their distinct vibe and include interiors by such decorating luminaries as Miles Redd, Tom Scheerer, Amanda Lindroth, Celerie Kemble, Veere Grenney and Mark D. Sikes. The book is also a best-of-the-best compendium of Schumacher's most stunning and beloved patterns and puts the company's devotion to artistry and craft on full display. From exuberant florals to exquisite embroideries to sensuous animal prints and more, readers will revel in the lavish imagery that showcases these exceptional designs. This edition's cover features Schumacher's Roca Redonda pattern.
