Care Instructions	<p>Our tables and chairs are designed to last for generations. Avoid dragging them, which can loosen joints. Periodically check and tighten any hardware that has worked loose, which will ensure the longevity of your furniture.</p> <p>Our polished tabletops are easy to maintain and are heat resistant. To clean, simply wipe with a damp cloth before buffing dry. We recommend protecting the surface from direct contact with hot serving dishes by using trivets or hot pads.</p> <p>Our wood finishes require minimal maintenance. Simply wipe with a soft cloth and a small amount of warm water. If the surface is soiled, you can add a small amount of a mild detergent to the water and then wipe with a soft cloth until completely dry.</p> <p>Avoid using polish or wax, which creates a residue buildup that attracts dust and dirt and can alter the surface appearance, making glossy finishes dull and matte finishes shiny. Avoid chemicals and other harsh detergents, which may cause lasting and visible damage.</p>
